

Roll No. and Name: 21BCE021 Vani Balani

Course Code and Name: 2CSDE80 Software Testing & Quality Assurance

Practical No: 6

AIM : To perform automated functional GUI testing using Sikuli tool.

The code uses an automation tool to perform tasks on the computer. It opens **Google Chrome** by typing its name and pressing **Enter**. Then, it goes to the website `http://testphp.vulnweb.com/login.php`. On this site, it types "test" into the username and password fields and clicks the button to log in. Each step is done by recognizing images on the screen and interacting with them.

Output:

← → ↻ Not secure testphp.vulnweb.com/userinfo.php

TEST and Demonstration site for **Acunetix Web Vulnerability Scanner**
